

SPECIAL COVID

During the difficult period we are all living in, Céline and Grégory, hotel and restaurant owners, are committed to making yours holidays as a relaxing moment.

Our team and us are doing our best to apply the barrier's gestures.

The capacity of the hotel will be reduced to 60% in order to manage the physical distance in the common areas.

Wearing a mask is mandatory throughout the building, except in the rooms and once seated at the restaurant or bar.

Arrangements have been made to guarantee you a successful holiday even in this time of crisis: "contactless" handles have been installed on some doors, hydro-alcoholic gel dispensers are available in the common areas, tables have been spaced, menus printed in disposable version, common areas disinfected regularly....

For private parties, our rooms, the staff is also very vigilant. Gel is used by our employees before going into your room and leaving. You can ask for daily cleaning or let us know your wishes for your stay (change of towels, empty bins,....)

Upon arrival, we will make every efforts to make your stay forget all your worries.

Greg & Céline
